

ANTI-WRINKLE INJECTIONS

Every person is different, with the total price depending on the area treated and how many units and the type of product we use.

Frown Lines	FROM 160	Masseter injecting	FROM 400
Crows feet	FROM 160	jaw slimming	
Forehead lines	FROM 100	teeth grinding	
Bunny lines	FROM 40	Hyperhidrosis	FROM 800
Gummy smile	FROM 40	excessive sweating	
Smoker's lines	FROM 40		

DERMAL FILLERS

The treatment price will vary depending on the area being treated, aesthetic goals & what type of product is needed to treat that particular area.

FROM 550

SKIN BOOSTERS

This treatment is used to refresh and rejuvenate the face, neck, hands and décolletage. It involves a series of small injections of dermal fillers to the skin, which improves the hydration & elasticity of the skin, resulting in softening of fine lines and smoothing rough dehydrated skin & imperfections.

1 mL	2 mL	3 mL

THREADS

PDO Mono threads are designed to tighten and thicken your skin, to assist with fine lines and wrinkles. The treatment price will vary depending on the area being treated.

FROM 550

PRP (PLATELET RICH PLASMA)

PRP, otherwise known as the 'Vampire Facial' uses the patient's own blood, which is then spun with a centrifuge to separate the platelets from the red and white blood cells. The platelets are rich in certain proteins, known as 'Growth Factors', which stimulate collagen production and skin repair.

This treatment is effective in treating wrinkles, dark circles under the eyes, hair loss and 'crepey' neck. Ongoing improvement continues over the next 12 months. Usually we recommend 3 treatments, 4-6 weeks apart.

For even better results, consider PRP with RF or Dermapen treatments. One vial is used to treat one area of concern (e.g. eyes).

1 VIAL	2 VIALS	3 VIALS	Add on Dermapen
400	700	900	150
